WRITTEN DETERMINATION

Dear Ms. Flores:

The Division has reviewed your application initially dated March 27, 2006, with final revision dated October 31, 2006 for the re-issuance of the written determination of hazardous waste antifreeze recycling activity originally issued by the Division to the previous operator back in April 1996. This facility is located on 1640 Foothill Drive, Suite 304, Boulder City, NV.

Based on the Division's evaluation of the revised application, your used antifreeze recycling operation continues to qualify as recycling under NAC 444.8437 and is herein granted a Written Determination in accordance with NAC 444.8455 and NAC 444.84555.

This Written Determination is limited to the recycling of used antifreeze as described in your application. The provisions of this Written Determination notwithstanding, any inaccuracies found in the information submitted may be grounds for termination or modification of this determination and potential enforcement action.

The Written Determination does not convey any property rights of any sort or any exclusive privilege; nor does it authorize storage or treatment of any hazardous waste for which a permit is required in accordance with 40 CFR 270 as adopted by NAC 444.8632 through 444.8634, inclusive. Roadrunner is responsible for the proper management of all incoming and onsite-generated waste streams in accordance with applicable state and federal regulations.

This determination shall remain in effect until such time that it is revoked and reissued, or terminated by the Division. NAC.44484555.5 stipulates that: The Administrator may revoke, suspend or modify a written determination if, at any time, he determines that:

(a) A facility or mobile unit no longer satisfies the conditions stated in the application upon which the Administrator issued the written determination;

(b) An applicant misrepresented or failed to disclose fully a relevant fact on his application;
